## REPORT OF THE BOARD OF HEALTH.

---

The work of your Board for the past year has consisted mainly in caring for contagious diseases.

There have been 18 cases of measles reported to the board during the year. Of these, four cases were contracted out of town and these four imparted the disease to eight others within the families in which they occurred. The origin of one case, that of a pupil in the village school, was unknown, but this case communicated the disease to a family of four through association at school and to one child living in an adjoining house. In all seven houses were infected with measles.

Two cases of scarlatina have occurred, one contracted from the other.

In no instance during the year has any contagious disease been imparted to any person outside the family in which it originated after it was discovered and reported.

The two houses infected with scarlet fever germs, also one in which occurred a death from consumption, were disinfected in accordance with the requirements of the State Board of Health.

One laboring man was quarantined by the board and his wages during the time lost were paid by the town.

The people generally seem to appreciate the wisdom of our laws for the prevention of disease and are willing to co-operate in their execution.

Please note the following from Chap. 21, Laws of 1905 :

Section 1. It shall be the duty of the attending physi-

cian, or some member of the patient's family or household, to report every death from pulmonary consumption, or the removal of a consumptive patient, to the local board of health within one week of such death or removal.

Sec. 2. It shall be the duty of said local board of health within one week after such notice or such information from any other source, to cause the infected premises to be thoroughly disinfected and cleansed; said work to be carried out by methods endorsed and recommended by the State Board of Health.

Sec. 3. No apartments which have been occupied by a consumptive shall be re-occupied until thoroughly disinfected and cleansed as provided for in this act.

Sec. 4. Any person violating the provisions of this act shall be punished by a fine of fifty dollars for each offense.

When the town decided to build a permanent highway from the town house to Proctor Square it became necessary to build permanent sewers for the disposal of the surface water along that highway. When this was about to be done, the land owners along the street saw a chance to do something for themselves and so while the town furnished a part of the pipe and traps, the abutters had a deep sewer laid at a cost of about twenty-five dollars each and all the houses from Geo. M. Chase's to the stone bridge are connected with it.

One of the great needs of our village is a system of sewers. Will not the residents on some other street unite in doing something for themselves rather than wait for the town to get rich enough to remove all our unpleasant and unhealthful conditions?

## REPORT OF SCHOOL BOARD.

---

With the exceptions of Divisions 2, 6 and 12 schools have been maintained in all the different school houses in town for the usual length of time, 35 weeks in the graded school and 29 in the others.

In Div. 12 the one pupil of school age has been accommodated in Div. 1, the few pupils in Div. 6 have been transported to Div. 7 and Miss Jennie E. Hussey for the last two terms has instructed the two pupils in Div. 2 at her home.

We believe the success of our ungraded schools has been better than the average for the past few years.

The parents have shown a creditable interest, manifested by more frequent visits, and weather conditions have been unusually favorable for the attendance of pupils.

In Div. 10, Friends' District, school entertainments, liberally patronized, have produced sufficient funds for starting a library and the number of pupils in attendance and the interest shown are giving to this district its former prestige.

By vote of the town at its last annual meeting \$200 was raised to secure accommodations for an additional grade in the central school. With this sum it was possible to provide limited quarters only and this has been accomplished without material damage to the school hall by uniting the space formerly occupied by the north stairway with the small recitation room previously used by the sec-

ond assistant in the high school. Twenty-eight sittings are possible and so far but twenty-five have been needed.

The reduction in classes and numbers in the high school caused by the transfer of the seventh and eighth grades to the new department has enabled its principal to perform the work with one assistant and the teaching force has not been increased.

Under normally healthy conditions we believe more and better work can be done than under the former plan.

The roll of honor and statistical table following are for the year ending June, 1905.

## REPORT OF THE TRUSTEES OF TUCKER FREE LIBRARY.

---

The total output of books for the past year has been 7786, as follows: Solid, 340; Magazines, 2025, and Fiction, 5421. There has also been quite a call for reference books. Two hundred ninety-two books have been purchased and placed upon the shelves, among them a valuable set of "Nature's Library," containing ten volumes. Books have been presented by Miss Jessie Fisher, Edna Dean Proctor, N. P. Sanborn, Willis Howe and Charles Cogswell and an unknown friend, and a most generous gift of 24 fine volumes from Mr. A. A. Gordon of Worcester, Mass., making a total of over 100 volumes given by this gentleman.

Magazines have been given for the reading tables by Mrs. Micah Howe, Mrs. Sadie Whitney, Natt Woods, Walter Whitney, Mrs. Sarah Childs and Prof. Schiller. Eighteen magazines, ranging from reviews to children's magazines, are taken by the library. Mrs. Emma and Nellie Preston present "Everybody's," Miss Anna Newton, the "Outlook," and Mr. Sewall Huntington the "Four-Track News" and the "World To-Day."

The valuable china from the George H. Plummer estate has been received at the library and will in a short time be placed in a cabinet in the "Historical Room."

Two more portraits have been hung in the Reading Room: One of Mr. Frank Gordon of Reeds Ferry, a former resident of the town; the other a fine picture of the late Col. L. W. Cogswell.

The Reading Room is open and ready for use when-

ever the library is open and we hope that many will find opportunity to use it.

The Card Catalogue system is very satisfactory, the young people especially doing good work with it.

Total number of books, 3500; pamphlets, 25; total number taking books, 624.

We wish to return sincere thanks to all kind friends.

M. MARION COLE, Asst. Librarian.

## REPORT OF TREASURER OF TUCKER FREE LIBRARY.

For the information of the citizens and tax payers of the town, the treasurer would say that during the past year Mr. French, the executor of the Geo. W. Tucker estate, has rendered his account to the Probate Court and found due the Tucker Free Library, as residuary legatee under the will, the sum of forty-eight thousand, eight hundred forty-nine dollars and seventy-six cents (\$48849.76). Mr. French, desirous of bringing the amount to even thousands, very generously made up the difference from his own funds so that it could be said that the Town of Henniker received from the Tucker estate the magnificent sum of forty-nine thousand dollars for library purposes, deducting the amount expended by the building committee and allowed by the Tucker will, viz: fourteen thousand dollars (\$14000.00) in the construction of library building, leaves the amount of thirty-five thousand dollars to be invested by the trustees in securities, the income to be used for the purpose of paying the annual annuities, the balance of the income to be expended for the maintenance of the library. I would say that many of the securities that are now held as a library fund were turned over from the Tucker estate. Such investments as have been purchased by the trustees have been bought with reference to having the principal secure and to return a fair rate of interest. How well this object has been accomplished we leave others to judge, but I will say that, on showing the list (a copy of which is annexed to this report) to a financier of ability, they were pronounced by him to be first class in every respect.

In compliance with the general laws I hereby submit the following account of all money received and paid out by me during the year ending Feb. 15, 1906.
